SUMMARY

Developed AI projects using machine learning and NLP, including a research intelligence engine with locally deployed LLMs (Ollama, Mistral 7B). Experienced in building interactive Streamlit apps and applying ML techniques for data analysis and prediction.

EDUCATION

Narula Institute of Technology, Kolkata <i>B.Tech in Electronics and Communication Engineering</i>	Aug 2023 – Present <i>CGPA: 7.5 / 10</i>
Techno India Group Public School, Kolkata <i>Senior Secondary (CBSE), Science Stream</i>	Apr 2022 – Mar 2023 <i>Percentage: 71.80</i>
Stepping Stone School (High), Rishra <i>Secondary (ICSE), Science Stream</i>	Apr 2020 – Mar 2021 <i>Percentage: 83</i>

SKILLS

Languages: C++, C, Java

Visualization: MS Excel, Tableau

Deployment: Streamlit, Git, VS Code

PROJECTS

- AI-RESEARCH-INTELLIGENCE-ENGINE** — *Python, Streamlit, Ollama, Mistral 7B, NLP* **2026**
- Built an end-to-end AI pipeline that ingests documents and generates natural language summaries using a locally hosted LLM via Ollama.
 - Implemented NLP preprocessing techniques including tokenization, text extraction, and semantic chunking to efficiently handle varied document formats.
 - Integrated Ollama to run large language models locally, enabling private and offline document analysis without reliance on external APIs.
 - Designed a modular Python architecture supporting multiple document types, making the system extensible for future enhancements.
- AI To-Do Assistant** — *Python, Streamlit, Gemini API, LLM Integration, dotenv* **2026**
- Developed an AI-powered task management application with an interactive Streamlit interface for organizing and tracking daily activities.
 - Integrated Gemini API to enable intelligent task suggestions, prioritization, and summarization.
 - Implemented session-based state management for real-time updates and seamless user interaction.
 - Ensured secure API handling using environment variables and modular application design.

CERTIFICATIONS

- **Ardent Computech Pvt. Ltd.** – Android App Development
- **NPTEL** – Programming in Java – Elite Gold
- **NPTEL** – Introduction to Database Systems – Elite
- **NPTEL** – Artificial Intelligence: Knowledge Representation and Reasoning

CO-CURRICULAR ACTIVITIES

- Currently pursuing a Web Development Internship focused on modern web technologies and practical application development.
- Participated in the Smart India Hackathon (SIH) with a collaborative team-based problem-solving approach.
- Served as Organizer and Volunteer for an International Conference on Signal Analysis for Smart Systems, contributing to event coordination and management.
- Actively participated in football competitions both within and outside college, demonstrating teamwork and leadership skills.
